Istanbul & Trabzon,Turkiye

[LinkedIn Profile](#)

[Github Profile](#)

Web developer with solid hands-on experience in building responsive and user-centric web applications using JavaScript, HTML, and CSS. Actively improving skills in modern JavaScript frameworks such as Vue.js, React, React Native, and Angular through real-world projects and continuous learning. Proficient in RESTful API integration, version control, and working within Agile teams. Focused on clean code, component-based design, and enhancing user experience.

PROFESSIONAL EXPERIENCE

NTT DATA Business Solutions

Istanbul, Türkiye

Developed and maintained **MVC-based Smart Factory web applications** to optimize real-time production processes, collaborating within **Agile Scrum** teams using **Git** and **Jira**.

Web Developer (Mid-Level SAP ME/MII Consultant)

April 2024 – May 2025

- Created **20+** interactive UI screens with **HTML, CSS, JavaScript**, and **SAP UI5**, while managed data and API integrations using **Java** and **RESTful services** for **Eczacıbaşı SSG ME/MII (SAP NWDI) Project**.
- Optimized **SQL queries** and **stored procedures** for efficient data processing.
- Optimized application performance through **code reviews and debugging** and improved **UI/UX designs**.

Web Developer (Junior SAP ME/MII Consultant)

Aug 2023 – March 2024

- Developed web applications using **JavaScript, HTML, CSS, Java (OOP)**.
- Designed modular UI screens, wrote **complex SQL queries** for **Tosyalı Algeria** and **Eczacıbaşı MII Projects**.
- Built **9+ mobile-compatible pages** for **Beko Egypt MES Project**.

Frontend Developer Intern (SAP ME/MII Intern)

Jan 2023 - Jul 2023

- Focused on user interface design and development for manufacturing dashboards.
- Collaborated with backend developers for seamless data integration.

Karadeniz Technical University

Trabzon, Türkiye

Software Developer Intern

Jul 2022 - Aug 2022

- Collaborated with faculty members on **machine learning** applications using **Python**.

Trabzon Directorate of Provincial Agriculture and Forestry

Trabzon, Türkiye

IT Intern

Jun 2021 - Jul 2021

- Developed a **Windows Forms** personnel management app using **C#**.
- Provided basic **IT support** and system maintenance.

CORE SKILLS

- **Frontend:** JavaScript, HTML, CSS, Vue.js, React, React Native, Angular
- **Backend Exposure:** Java (OOP), RESTful API, C#
- **Database:** SQL, Relational Databases, MySQL, Microsoft SQL Server
- **Tools:** Git, Agile Workflow, Jira

EDUCATION

Istanbul Ticaret University

Istanbul, Türkiye

Bachelor's Degree in Computer Engineering

Sep 2019 – Jun 2023

- GPA: 3.53 / 4.00
- Full scholarship recipient.
- Instruction language: At least 30% English
- Graduated as the top student in the department.

LANGUAGES

English (Upper Intermediate)

Turkish (Native)

PROJECTS

Teknofest 2022 Rocket Competition (Medium Altitude Category)

Istanbul, Türkiye

Software Team Member

Feb 2022 – Jun 2022

- Developed the ground station **GUI** using **C#** to monitor rocket telemetry data.
- Collaborated in a **multidisciplinary team**, ensuring seamless integration between hardware and software components.

Teknofest 2022 Mixed Fleet Simulation Competition

Istanbul, Türkiye

Team Member

Feb 2022 – Jun 2022

- Worked on optimizing the task allocation between unmanned aerial, land, and sea vehicles to complete given tasks in the simulation, using **Python**.
- Contributed as part of a **5-person software development team**.

PERSONAL PROJECTS

ASP .NET Web Application

- Developed a web application using **ASP.NET MVC5** and hosted it on **Azure** via **Web App Service**.
- Implemented the back-end with **C#** and designed the front-end using **HTML5**, **JavaScript**, and **CSS**.

Note-taking Website

- Built a dynamic note-taking platform with **HTML**, **CSS**, **JavaScript**, and **Bootstrap**.
- Integrated a **MySQL** database and implemented server-side functionality using **PHP**.

Android Chat Application

- Designed and developed a real-time chat application using **Android Studio (Java)**.
- Utilized **Firebase** for user authentication and data storage.

Machine Learning Project - Image Classification with CNN

- **Trained a deep learning model** using **Python**.
- Collected a custom dataset of 9080 images through web scraping with BeautifulSoup.
- Pre-processed image data using DfPy, Rembg, and Keras.
- Fine-tuned a pre-trained MobileNetV2 model using TensorFlow to classify clothing images.
- Evaluated model performance through testing and analysis.

Windows Forms Application

- Designed and developed a **full-stack desktop application** for library management using **C#**.
- Designed and implemented a **relational database in MsSQL** to efficiently store and manage data.
- Integrated **SQL** queries and database operations to enable efficient data retrieval and management.
